Dear Museum Store,

You sent me the wrong tape. With instructions that say unauthorized returns cannot be accepted.

Ms. Anne Barbehenn is a student at College Park and a friend. I asked her to get the transcript. She was directed to you with the identification of the tape on the enclosed records.

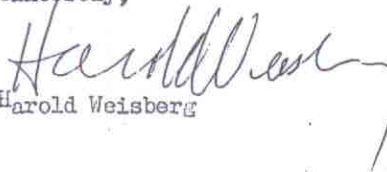

I also enclose Ms. Branch's helpful letter.

Never dreaming you'd make such a mistake I wasted more than an hour to hear the whole thing not knowing where it should be. If I may make a suggestion that may be helpful to you and certainly will be to those who want to hear these tapes, there should be enclosed information stating that what is desired is somewhere on the hour-long tape or better, where it is.

I also suggest that this tape was recorded with the machine going too rapidly. That made it more difficult to make out.

I do hope you will send the correct tape promptly and tell me what to do with the wrong one.

Sincerely,

Harold Weisberg
